Now, the color of the cloud in the sky is tropical, yeah  
Red color of the sun is like your cheek  
Tell me I'm the only one, babe  
I fancy you, I fancy you, fancy you  
It's dangerous, it pricks, you are like a rose  
It's okay, I am not afraid at all  
Hold it harder, take my hand  
It will be a little dangerous, even more dangerous, baby

Like sweet chocolate ice icream (Sweet)  
My feeling melting now so lovely  
Shining most brightly in the dark universe (Dark)  
The star, the star, and your big star next to it

You there, I fancy you  
I don't want just anyone  
Hey, I love you  
Yes, you, I fancy you  
You can be happy like a dream  
'Cause I need you

Fancy (You, ooh)  
Who cares who likes who first  
Fancy (You, ooh)  
I will come to you now  
Fancy you

Everyday, I can not do anything really  
Oh my, mayday, it will become very serious  
Bang-bang, my head is hypnotized, becomes reset

What should I do? Not sure if it is right, S.O.S  
Swim, swim, I become submarine in the sea called you  
Every day is birthday, our sweet fantasy  
Dream, dream, it's like a dream, pinch your cheek  
Nowadays, my status message is la-la-la, baby
