

Bear Tracks

Stealing Sheep

La

I heart to heart with you to find out what's true,
I'll fall apart from you, you know you do too,
Well I tumble and walk away,
Well I crumble with nothing to say.

Ooh

I heart to heart (heart to heart) with you to find out what's true (to find what's true),
And I'll fall apart (I fall apart) from you, you know you do too (you know you do too),
Well I tumble and walk away (ooh),
Well I crumble with nothing to say.

Ooh

I could hit and run before you hit the ground,
I could cover up, won't leave no bear tracks, bear tracks,
I like you, 'cause you like me,
And I'm like you, 'cause you like me.

(For love) It seems I'm falling out of loving and meaning,
(For love) At times I realise that there is no reason,
(For love) It seems I'm falling out of loving and meaning,
(For love) And I can see myself falling on the ceiling.

For love,
You know you do too,
For love,
I fall apart,
For love,
You know you do,
For love,
I fall apart,
For love,
You know you do,
For love,
I fall apart,
For love,
You know you do,
For love,
I fall apart from you.

Ooh

Laa
