Deadlock

Stealing Sheep

Who's making decisions for you in your life?
The engine's turning round
But something always holds you down

Finally look within and see yourself looking back
When will you get a grip and take hold of yourself?

It's all that you're seeing
It's all that you're feeling
It's all that you're being
Just look within
(Night after night, day after day)
It's a deadlock situation

Well, you're on a role, roll back
Take a back seat from me
And you'd see the wood for trees

Finally look within and see yourself looking back
When will you get a grip and take hold of yourself?

It's all that you're seeing
It's all that you're feeling
It's all that you're being
Just look within
(Night after night, day after day)
It's a deadlock situation

You don't need any old reason to lift off high
Let go of any old feeling, leave them behind

It's all that you're seeing
It's all that you're feeling
It's all that you're being
Just look within
(Night after night, day after day)
It's a deadlock situation

It's all that you're seeing
It's all that you're feeling
Just look within, look within
Look within, look within
Listen to me: Look within
Night after night, day after day
It's a deadlock situation

It's all that you're seeing
It's all that you're feeling
Just look within, look within
Look within, look within
Listen to me: Look within
(Listen to yourself and)
Look within, look within
