

# DNA

## Stealing Sheep

Yeah, your design  
Hotter than sunshine  
Take credit where credit is due  
Oh, my days, your DNA is crazy, you're so beautiful

I made that (yeah) (huh?)  
Yeah, I made that (yeah)  
Baby, made it from scratch (hm)  
What? Are you serious?  
Ain't that mad? (Yeah) I made that, uh-uh  
Fair play, I didn't know that

Yeah, ooh, ooh, ooh, ooh  
So, so beautiful  
Yeah, ooh, ooh, ooh, ooh

Yeah (yeah)  
Your design, so hot  
Hotter than sunshine (it's so beautiful)  
Take credit where credit is due (okay)  
Oh, my days, your DNA is crazy, you're so beautiful

Who? Me? No, I'm an ugly boy with an ugly voice, I make ugly noise  
You want my DNA? But you don't even know my name  
I'm so sorry to interrupt, do you need my help?  
Is it time to fuck? Do you love me now?  
Okay, I'll hold my hands up  
That's the way you made me, that's the way you made me  
That's the way you made me, uhm  
So, so beautiful  
Too late to try and change me, no, no, no, no  
And that's what's beautiful

Well, that's it now  
No more tweakin', no peekin' either  
Are you ready? (Anytime you're beautiful)  
DNA, DNA, DNA, DNA, DNA, DNA (again?)  
DNA, DNA, DNA, DNA, DNA, the end
