

FOUND YOU

Stealing Sheep

It's been so long since I've seen anyone
Now I've found you and it feels good
'Cause it's been so long since I've seen anyone
Now I've found you and it feels good

It's been so long since I saw you
Out in the crowd
Caught a glimpse, thought I saw you
But you're not you, who are you?
Well, we started out in the sunshine
Wasting time
Just having fun, fun, fun
Fun, fun, fun, fun
Then I turned around, it was really loud (In the sun)
But you had gone, gone, gone, gone, gone, gone

And now I'm looking for faces in faces of people
In places with arms raised up so high
You're underneath, helplessly losing yourself to the spaces
And wasters, I'm just catching glimpses of you, 'cause

It's been so long since I've seen anyone
Now I've found you and it feels good
'Cause it's been so long since I've seen anyone
Now I've found you and it feels good

Be on my phone looking for you
Airplane mode
I've spent so long looking for you
Lost in the crowd, praying for a sign
Contract mind, going round and round
Round, round, round, round, round, round
The stage lights up, think I see you
Now, now, now, now, now, now, now

Now that I'm round you I'm glad that I found you
And now that I found you I'm glad to be round you
I want to be with you, I want to be with you
I want to be with you, I want to be, want to be
Near you, I'm happy, feel all the same things
Disappearing inside me, it's [?]
My thoughts I've been bracing like [?]
Girl racers with the bumpers on
Don't talk to me while I'm driving
I'm concentrating to the radio song

Reflect the sun

It's been so long since I've seen anyone
And it feels good
'Cause it's been so long since I've seen anyone
Ooh, and it feels good

Yeah

And now I'm looking for faces in faces of people
In places with arms raised up so high

You're underneath, helplessly losing yourself to the spaces
And wasters, you're just catching glimpses of what we were thinking while
While we were just living, enjoy the ride
And the way that we're moving and waving and grooving
Oblivion, there's no reception here
Love in the traces as time flashes by
While we're taken through, millions and millions
And millions and millions of Jeffries all under one roof
We're together now
(Forever together
Forever together
Forever together
Forever together)

'Cause it's been so long since I've seen anyone
Now I've found you and it feels good
