Gold

Stealing Sheep

Hey, I'm calling your name but you're long gone,
Hey I'm lost in the rain and I need the sun,
I see a glistening light,
A constellation of you shining bright,

With flickers of gold gold gold,
Gold Gold Gold,
Gold Gold Gold,
Gold Gold Gold.

Hey you're getting me down with that same frown,
Going over your words with the same ground,
No-one's letting you go down that old road,
Over the mountains fold into another one.

We all spin round and round and round the sun,
All day long, just look at what you've done now.

Gold Gold Gold,
Gold Gold Gold,
Gold Gold Gold,
Gold Gold Gold.

He said listen to me,
That's fighting talk, you, orbiting me,
Shattered bones across our path,
Some things will come to pass,
I head across the Diamond Sun,
I spin a sphere of burning fun,
Shattered bones across our path,
Now all of this will come to pass.

We all spin round and round and round the sun,
All day long, just look at what you've done now.

Gold Gold Gold,
Gold Gold Gold,
Gold Gold Gold,
Gold Gold Gold.
