

Your Saddest Song

Stealing Sheep

Your saddest song
Plays a soundtrack to us all
And we will dance for you
We'll make it up, you want it to
And we will play for you, we'll take it all away

Blow aside and take your lowest thoughts away from mine
Go outside and take some air
Blow aside and take your lowest thoughts away from mine
Go outside and take some air

We'll go with you walking
Make a plan that's golden
We'll shake your worries
You won't be shied

We are just ghosts
Pinch your skin
And wake up
You are not really there
And we'll be dancing on to this old sing along
Sing along with me

Blow aside and take your lowest thoughts away from mine
Go outside and take some air
Blow aside and take your lowest thoughts away from mine
Go outside and take some air

We'll go with you walking
Make a plan that's golden
We'll shake your worries
You won't be shied
