

# Ghost Grinder

Steam Powered Giraffe

What ever happened  
To the life we held so dear  
We miss you most  
When the thoughts can't disappear

Rest in Peace  
Please find your way  
Hear me crying  
through the embers of the day  
Come to me  
And Da - ance  
Come on and dance  
Oh, I get a little fright  
I get a little inspired  
I give a little Hee-hee-hee  
Oh, lets have a little fun  
Before the setting sun  
Lets give a little Hee-hee-hee

()  
Come on and da - ance  
and save my soul  
Go on and move those bones  
as you used to know  
The air is sweeter  
with you floating near  
Come on and dance with me  
To the grinding gears  
Come all, the ghost grinder is here

Open your coffin a crack and  
Listen up all you there specters  
Hear the cry of the Grinder Lector  
Join our dance and shake it loose  
Cut a rug and swing the noose

Memories of the falling rain  
Sun and heat they don't feel the same  
Mem'rees they do scar and haun' you  
Testify and claim its true  
But we've got no bones  
No pulse of our own  
But we tear up the floor  
Lets show 'em what's in store!

Oh, I get a little fright  
I get a little inspired  
I get a little Hee-hee-hee  
Oh, lets have a little fun  
Before the setting sun  
Lets give a little Hee-hee-hee

()  
Rest in Peace  
Please find your way  
Hear me crying  
through the embers of the day  
Come to me

And dance the night away  
Come on and Da - ance  
Come on and dance.  
Yeah, I get a little fright  
I get a little inspired  
I get a little Hee-hee-hee  
Oh, lets have a little fun  
Before the setting sun  
Lets give a little Hee-hee-hee

Grab your candy skull and
