

Over the Moon

Steam Powered Giraffe

I'm over my head
I'm head over heels
I'm heeling to love
My love is over
Over the moon

There's a place inside my heart for thee
Love is such a terrible thing to be

Maybe I'm just fabricating
What I really wish to see
You got me girl, you got me
Oh, you got me good
You've got me feeling [x4]
Oh, I'm over the moon
Time to recover
To rediscover
Over the lovers
My heart it shudders

Oh, I'm over the moon
I'm done with you. My patience runs thin
All the little cows impaled on your chin
Maybe I'm just fabricating
All the tingles in my skin
You got me girl, you got me
Oh, you got me good
You've got me feeling [x4]
over the moon
Out of the love trench
Over the heart wrench
Put me on the bench
My love thirst is quenched
I'm over the moon
You got me good, you got me [x3]
Oh oh
You got me good, you got me

You've got me feeling [x4]
over the moon

You've got me feeling [x4]
over the moon
