

Drip Drip

Steel Banglez

(Steel Banglez)

I can't put no trust into bitches
'Cause they gon' do you dirty like them snitches
I can't be your man, but I can hit it
When I get shy, I leave her dripping

Make her drip, drip
I make her drip, drip
When I kiss her, you know I make her drip, drip
She know I'm lit, lit
She know I'm lit, lit
Real nigga gangster, I make her drip, drip

Ah
Lifestyle expensive like a Bugatti
Too happy
No DNA like a new bally
The drip's got your missus going doolally
And all my clothes fresh, I don't do tatty (Nah)
I came through smelling like Baccarat
My habitat, imagine that
Nigga, yeah I have to rap (I have to, brother)
Spiritually a mystery
You sick of me, a different breed
Nigga, this the vision team (That's the vision, brother)
I got 'em in my soul
Promise I'm evolved
They ain't really honest and it shows
Flights to Dubai, right by my side
Price of his life, license to drive

I can't put no trust into bitches
'Cause they gon' do you dirty like them snitches
I can't be your man, but I can hit it
When I get shy, I leave her dripping
Make her drip, drip
I make her drip, drip
When I kiss her, you know I make her drip, drip
She know I'm lit, lit
She know I'm lit, lit
Real nigga gangster, I make her drip, drip

I need a ride or die chick
Not no gold digging bitch, someone I can spend my life with, let's go
Babes, you can leave
You was weighing up your options, I was weighing up these kis
All them late nights I been in the trap
You entertaining all these niggas on Snap'
But I thought we was bigger than that
I thought you loved me, I guess it was an act
Guess I'll stick to these packs
At least this shit don't get taxed, let's go
I still come through in that Benz, G
Had your mistress in Louis bedsheets
Made her drip cah I fuck her 'til her legs week
And next week, I'll be with the next freak

I can't put no trust into bitches
'Cause they gon' do you dirty like them snitches
I can't be your man, but I can hit it
When I get shy, I leave her dripping
Make her drip, drip
I make her drip, drip
When I kiss her, you know I make her drip, drip
She know I'm lit, lit
She know I'm lit, lit
Real nigga gangster, I make her drip, drip

You speak to niggas when we break up
We ain't ever gonna make up
Why you let your friends come in between us?
And I ain't ever done no favours
And I know you miss me when you wake up (I know)
One more kiss is all it takes though
You might like them niggas, but you always love me
'Cause ain't no other nigga know your body like me, yeah
I see you drippin' in that big a machine, yeah
I know you have to love me, yeah
And we can never go be, yeah (Big stacker, no lacker, you know?)
What makes you different from these girls that I see see on explore page?
Can I trust you for life or can I trust you for four days? (Can I?)
Kissin' up your neck, I know you love it, of course, bae
Had you dripping wet and that was just from the foreplay

Make her drip, drip
I make her drip, drip
I'm a gangster, you know I make her drip drip
She know I'm lit, lit
She know I'm lit, lit
Real nigga gangster, I make her drip, drip
(Steel Banglez, The Playlist)
This one's for all the couples taking flights
Ride or die like Bonnie and Clyde
Let's go, Deno
