

Black Eye

Steel Train

Black eye, you showed me in a painting
Buildings and chrome
Don't take that pill, and ill take you home
I said common and realize one day you're gonna die

Break free, we'll be back before the weekday
Your dad will never know
That you took the pill, and i saw the road
When the chemicals are in i said one day your gonna die

Blow up, well i got a miracle
And you wanna know why
You were a home, and i am on fire
When the chemicals are in i said one day your gonna die

Black eye you hit, black eye on me
I am your trampoline

Black eye, you showed me in a painting
Buildings and chrome
Don't take that pill cause ill take you home
Oh i said common and realize that we can never die

Black eye you hit, black eye on me
Take the pill and I'll watch you sleep
Drive all night and you let me free
I said ill tell you one more time i never gonna be....
I am your trampoline
