

# Danger Comeback

Steeler

Mikrochip faces controlling your fate  
Coldness... all around  
Eyeballs are burning from endless TV  
Robots... spinning us down

[Chorus 1:]

Wake up... just to find that you've got a mechanical arm  
Wasn't there yesterday!  
Reach out... to hold your chemistry  
Made baby in gas

[Chorus 2:]

Danger comeback  
Danger comeback  
Power on/off  
Rely on... machinery  
Danger comeback  
Danger comeback  
System melt down... for all eternity

Colourful cables create atmosphere  
Hardware... scenery  
Satellite teachers are sent far from here  
Shining... down on earth on the screens

[Chorus 1 and 2]

For all eternity

[Chorus 2:]

Danger comeback  
Danger comeback  
System melt down for all eternity
