

## To Be Human

Steeleye Span

Break o break this dark cold fear  
Make o make it disappear  
I am loved but not in love  
Help me to escape from here

Every smile seen as a sign  
That somehow I'd make you mine  
Nothing could be more untrue  
I need to escape from you

I only wanted to be human  
I only want to be alive  
I only want to be in your world  
I only wanted to survive

Take away your icy hand  
You will never understand  
I will never be your muse  
How could you be so confused

I only wanted to be human  
I only want to be alive  
I only want to be in your world  
I only wanted to survive

Break o break this dark cold fear  
I only wanted to be human  
Make o make it disappear  
I am loved but not in love  
I only want to be alive  
Help me to escape from here

Every smile seen as a sign  
I only want to be in your world  
That somehow I'd make you mine  
Nothing could be more untrue  
I only wanted to survive  
I need to escape from you
