

Cabernet

Steelheart

Yeah I've been sitting 'round
Just sticking it out with time
Thinking a whole lot and I'm sick of all my cryin'
Oh take me down, take me down
Take me down inside
It's too late to follow
Too late to follow my pride

Now tell me - How do I love, how can I love

Yeah I've been hiding in the corners of my mind
Been tried and convicted, committed no crime
No ultimatum, they got me by the balls
Now I've come too far, too run from it all

Now tell me - How do I love, how can I love

After all that we've been through
We lost love
Help me, Help me
Where do I go from here
