

Best Life

Stefanie Heinzmann

You say, "Baby, this time next year
Maybe we might get there"
Save up all the good times, yeah
Till things get better, yeah, yeah
Is it human nature
To think the mirror hates you?
Perfect bodies in the pictures
But everybody got filters

I love you just the way you are
I'd do anything to show you
I'm the one who knows you

Are we living, living, living
Living our best life?
While we're giving it, giving it all up
Looking good on the outside
While we're waiting, wishing, hoping
Baby, we're missing the moments
Should be living, living, living
Living our best life

You say, try make it to the weekend
Without waking up my demons
Working hard, still nameless, yeah
Heard it's easy when you're famous
Maybe they're all sipping champagne
Instead of dealing with the heartache
'Cause everybody got secrets
But they bury them deep, yeah

I love you just the way you are
I'd do anything to show you
I'm the one who knows you

Are we living, living, living
Living our best life?
While we're giving it, giving it all up
Looking good on the outside
While we're waiting, wishing, hoping
Baby, we're missing the moments
Should be living, living, living
Living our best life

You say, "Baby, this time next year
Maybe we might get there"
Save up all the good times, yeah
Till things get better, yeah
