

So the wheels came off and the clocks went back
And we filmed ourselves on the wrong track
But we may believe, 'til we both came clean
And we told each other that it's better not to ask
Don't ask
Don't ask if you don't want the answer
Oh, no questions. Oh, no questions
We already know

I wanna be bigger than that
I wanne be all that I can
On our best days
On our best days
We can be all this this time
We can be ten miles high
We can be this, we can come back
But we have to be bigger than that

It's a long way down to where we've been
I don't want to say things that I don't mean
And the hardest thing's to climb the wall
But if we both stay here then we're gonna stay small
So don't ask, don't ask
I don't wanna surrender
Oh, no questions. Oh, no questions
We already know

I wanna be bigger than that
I wanne be all that I can
On our best days
On our best days
We can be all this this time
We can be ten miles high
We can be this, we can come back
But we have to be bigger than that
We have to be bigger, bigger
Believe us, believe us, we do, yeah
'Cause you're the someone
The someone, the someone
I depend on, depend on, uh

We have to be all this this time
We can be ten miles high
If you want to
Do you want to?

I wanna be bigger than that
I wanne be all that I can
On our best days
On our best days, yeah
I wanna keep mountains in mind
We can be primus, you and I
We can be this, we can come back
But we have to be bigger than that
