

Carry The World

Stefanie Heinzmann

You keep on saying you've got Shadows in your heart
You tell me that you think you'll never be enough
It's hard to live without a little bit of love
You need somebody
We all need somebody

All alone yeah yeah yeah
We can't do it all alone yeah yeah yeah

Oh I'll be there to carry the world carry the world
When you need a friend I'll carry the world carry the world
When you can't get through the night
I swear its gonna be alright
You know that I'll be there to carry the world
I'll be there

I'll help you take it right back to the start
Help you remember who you really are
It's hard to make a little light out of the dark
You need somebody
We all need somebody

All alone yeah yeah yeah
We can't do it all alone yeah yeah yeah

Oh I'll be there to carry the world carry the world
When you need a friend I'll carry the world carry the world
When you can't get through the night
I swear its gonna be alright
You know that I'll be there to carry the world
I'll be there

Oh I'll be there to carry the world carry the world
When you need a friend I'll carry the world carry the world
When you can't get through the night
I swear its gonna be alright
You know that I'll be there to carry the world
You know that I'll be there to carry the world
I'll be there
