

# Closer To The Sun

Stefanie Heinzmann

Three, Two, One  
Got ready for take off  
Got a one way ticket  
Out of this world  
All your worries have been on the radar  
Yeah, you gonna forget them  
You never wanna come down

Oh my god, the view is amazing  
What ever the weather but it set yourself free  
Dives sweep in, I'm feel your heart changing  
We're gonna go higher than we've ever been  
Straight up yourself in time 'cause

The universe is waiting just for us (waiting just for us)  
And life is beautiful when we're closer to the sun  
Haha, haha, hahau, haha, haha, hahau  
Haha, haha, hahau, closer to the sun

No, sometimes we need some resistance  
Make me afraid of falling of lenin a fire  
Need the darkness with no disabrilliance

Of a million diamonds lining up the sky  
Straight up yourself in time 'cause

The universe, is waiting just for us (waiting just for us)  
And life is beautiful when we're closer to the sun  
Haha, haha, hahau, haha, haha, hahau  
Haha, haha, hahau, closer to the sun

(It's a long way to the stars and back, stars and back)  
The journeys just begun  
(It's a long way to the stars and back, stars and back)  
When we're closer to the sun

The universe is waiting just for us  
And life is beautiful when we're closer to the sun  
Haha, haha, hahau, haha, haha, hahau  
Haha, haha, hahau, closer to the sun  
Haha, haha, hahau, haha, haha, hahau  
Haha, haha, hahau, closer to the sun
