

Every Day's A Good Day

Stefanie Heinzmann

Baby, now I'm running
When I always used to walk
And it's so stunning
That there is nothing wrong
I'm speeding in a good way with you

And I go on and on and on and on
And on and on and on and on, mh

It's all you, darling
Every day is a good day, every day is a good day with you
I keep running
Every day is a good day, every day is a good day with you

Baby, here's my theory
Maybe you have changed my way
'Cause I've stuffed worry
Should've done all long
You've opened up the doors to the truth

And I go on and on and on and on
And on and on and on and on, oh, yeah

It's all you, darling
Every day is a good day, every day is a good day with you
I keep running
Every day is a good day, every day is a good day with you
Darling, every day is a good day, every day is a good day with you

Every step is healing, pushing through
Every step is [?], this is tried and true
Every step some miracle with you
Keep my love [?], making me all new

It's all you, darling
Every day is a good day, every day is a good day with you
I keep running
Every day is a good day, every day is a good day with you
I keep running
Every day is a good day, every day is a good day, Uh
Darling, every day is a good day, every day is a good day with you
Mh, yeah, every day is a good day with you
