

# How Things Change

Stefanie Heinzmann

I know we made so many plans  
We held the time in our hands  
And it's so hard to let 'em all go  
The promises we'll never keep  
The things we bought that we won't need  
Tomorrow's new  
And I will never know

Things change  
Yeah they do  
Cause I thought that I'd always love you  
And I know nothing stays the same  
Yeah things change always will  
You can't tell your heart how to feel  
And I thought you would still be here today  
But things change

I was sure and so were you  
We were too strong to break in two  
But here we are a thousand miles apart  
Wonderin' why it has to be this way  
It's not your fault  
No one's to blame  
What we don't feel  
It's just the way we are

Things change  
Yeah they do  
Cause I thought that I'd always love you  
And I know nothing stays the same  
Yeah things change always will  
You can't tell your heart how to feel  
And I thought you would still be here today  
But things change

Nothing's set in stone  
Things will come and they will go  
And that's just the way  
Just the way it is

Things change  
Yeah they do  
Cause I thought that I'd always love you  
And I know nothing stays the same  
Yeah things change always will  
You can't tell your heart how to feel  
And I thought you would still be here today  
But things change
