

# Roots to Grow

Stefanie Heinzmann

Roots to grow and wings to fly  
The world is cold, the world can lie

(Stefanie)  
Every child has its own piece of sky  
A place you hold till the day that you die

I wanna be heart, I wanna be soul  
I wanna be free to do the best I can  
And that'll keep me satisfied

(Choir)  
Roots to grow and wings to fly  
(Stefanie)  
That's what your mama gave you  
(Choir)  
The world is cold, the world can lie  
(Stefanie)  
Nobody else will save you

My God he asks promises I just can't make  
I need to search my wilder side

(Choir)  
Roots to grow and wings to fly

(Gentleman)  
Lord have mercy  
Yeah, I know that sky's the limit  
You know why?  
Anyways

You bless with every tingle  
When you wanna be  
Actual virtual reality  
You know if I'm missin' you

You are in charge of your memory  
Certain things take time to see

Yes you got to have a mind of your own  
Responding to your feelings deep down in your bone

Life is so lucious  
Soul is so precious

Now spread your wings and fly

(Choir)  
Roots to grow and wings to fly  
(Gentleman)  
That's what your mama gave you  
(Choir)  
The world is cold, the world can lie  
(Gentleman)  
Nobody else will save you

(Stefanie)  
My God he asks promises I just can't make  
I need to search my wilder side

(Choir)  
Roots to grow and wings to fly

(Stefanie)  
Somewhere I hear my name  
far off in the haze

But now I don't feel the same  
need somewhere else, somewhere else to play

(Choir)  
Roots to grow and wings to fly

(Gentleman)  
That's what your mama gave you

(Choir)  
The world is cold, the world can lie

(Stefanie)  
Nobody else will save you

(Stefanie)  
My God he asks promises I just can't make  
I need to search my wilder side

(Choir)  
Roots to grow and wings to fly
