Shine

Stefanie Heinzmann

Shine
People say that you should wait
Take your time and learn the way
Keep following the recipe

Never draw outside the lines
And all the words they have to rhyme
And don't you dare to disagree

But you don't have to know the song to sing it loud
And you don't need to learn the steps to dance around

Catch a raindrop with your tongue
Chase your shadow in the sun
Paint the sky a different blue

Hold a seashell to your ear
Let the ocean sound appear
Let the waves remind you

That you don't have to know the song to sing it loud
And you don't need to learn the steps to dance around

Nobody taught the sun to shine
You know how to love and how to cry
And that's all you need to know to be alright

Remember the feeling of flying
You're like a melody rising
You're like a melody rising

You don't have to know the song to sing it loud
And you don't need to learn the steps to dance around

Nobody taught the sun to shine
You know how to love and how to cry
And that's all you need to know to be alright
