

# Thank You

Stefanie Heinzmann

We don't have to speak  
A glance from your eyes  
You see me complete  
There's now way to hide  
If you wrote a book  
If you sang a song  
I could skipped to the end  
Well I sing along  
It's funny how this works  
So easy

You know me like no one knows me completely  
You trust me, keeping your secrets  
You saving my love  
When I think of all you do  
I wanna thank you

When I'm around you  
I'm most truly me  
You bring out the best  
To I'm supposed to be

I hear words come out of your mouth  
Like there the ones, I need to get out  
It's funny how this works  
So easy

You know me like no one knows me completely  
You trust me, keeping your secrets  
You saving my love  
When I think of all you do  
I wanna thank you

I never find another friend  
One who still through the thick and thin  
Like you

Completely

You saving my love  
When I think of all you do  
I wanna thank you  
Thank you
