

Great Assembly

Steffany Gretzinger

Here we are gathered
In one place together
Your Spirit is ever drawing us
Our hearts are burning
Jesus, You're all we want

We long, we long, we long for You and no one else
Could satisfy us like You do, Jesus
We long, we long, we long for You and no one else
Could satisfy us like You do, Jesus

Here we are gathered
In one place together
And we will remember all You've done
Just as You promised
We'll see Your Kingdom come

We long, we long, we long for You and no one else
Could satisfy us like You do, Jesus
We long, we long, we long for You and no one else
Could satisfy us like You do

Gathered in this great assembly
We'll cry out, "You are worthy"
Can You feel our hearts explode with praise, oh-oh-oh?
Join with those who've gone before us
Cover You in endless worship
You will be forever crowned with praise
Gathered in this great assembly
We'll cry out, "You are worthy"
Can You feel our hearts explode with praise, oh-oh-oh?
Join with those who've gone before us
Cover You in endless worship
You will be forever crowned with praise

We long, we long, we long for You and no one else
Could satisfy us like You do, Jesus
We long, we long, we long for You and no one else
Could satisfy us like You do
We long, we long, we long for You and no one else
Could satisfy us like You do, Jesus
We long, we long, we long for You and no one else
Could satisfy us like You do
