Stefflon Don  
Mmm yeah  
Stars and  
Stars and  
Flowers (Juicebox got that juice)

I said pardon me, I aim, ain't nobody hard as me  
He said he love me, that's hard to see  
Ain't got no keys, I just start the Jeep  
These liquor and drugs keep me company  
Diamonds on me, they ain't numbing me  
I feel the spirits all over me  
I know that God watching over me  
These bitches ain't realer than me  
I get respect in the streets  
From trapping and singing on beats  
Playing for keeps  
Don't get why they hating on me  
He need me, he just couldn't see  
What's it gon' be?  
Don't get no better than me  
Swore he for me in his dreams  
You ain't gon' leave  
Get money, I cook and I clean  
Loyal till I D-I-E (D-I-E)

Ice freeze  
Pull up, I fill up the seats  
Try me  
Got the burner, I turn up the heat  
Put a furnace right under your feet  
All the blogs they be hating on me  
I do this for my family  
They depending on me

Hey, would you like that?  
If I wrote a love letter, would you write back?

You know that we're not the same  
Cut the grass, now I'm seeing the snakes  
Fuck working for minimum wage  
Did a show, look at what I got paid  
Don't care what the haters say  
Been touring, I'm outer space  
Told my son I'll be home in a day
