

Blue Moon

Stela Cole

Blue moon
Blue moon

Blow smoke, Rolling Stone
You're my dirty superstar (you're my dirty superstar)
Fast car, broken hearts
Blame it on your sweet guitar (blame it on your sweet guitar)
Oh

Like a train off its tracks
You're tryna synchronise
Said you'd be right back
Waiting for you only in the midnight
When it's shining in your face like the sea

Blue moon, won't you come around more?
Won't you tell me that you love me?
Won't you stick around?
Blue moon, I love my baby, oh
I've been wandering in the dark
Blue moon, won't you come around more?
Won't you promise me you're never gonna let me down?
Blue moon
Blue moon

There's no escaping what your mind is saying
When you feel me on somebody else (Oh, oh, oh, oh, oh)
No conversation gonna help you face it
Better pull that liquor off the shelf (Oh, oh, oh, oh, oh)

Like a train off its tracks
You're tryna synchronise
Said you'd be right back
Waiting for you only in the midnight
When it's shining in your face like the sea

Blue moon, won't you come around more?
Won't you tell me that you love me?
Won't you stick around?
Blue moon, I love my baby, oh
I've been wandering in the dark
Blue moon, won't you come around more?
Won't you promise me you're never gonna let me down?
Blue moon (oh, oh, oh)
Blue moon

Angels, are you somewhere out there?
I can hear your footsteps echo through the night

Blue moon, won't you come around more?
Won't you tell me that you love me?
Won't you stick around?
Blue moon, I love my baby, oh
I've been wandering in the dark
Blue moon, won't you come around more?
Won't you promise me you're never gonna let me down?
Blue moon

Blue moon
Oh, blue moon
