

# Loverspell

Stela Cole

I want your Levii's on the floor  
Say my name and lock the door  
Baby let me choke on your love  
Let's keep the fire stoked blazing hot  
Lock me up in Camelot  
Mystic man, you got me undone

Ooh, yeah  
Smoking in the shower  
Kiss me and devour  
Ooh, yeah  
You're the only thing on my mind

Come put your loverspell on me, baby  
I want your loverspell  
Come put your loverspell on me, baby  
I want your loverspell

I'm riding shotgun, Chevrolet  
Whiskey lips are yours to taste  
Begging you to say you're my man  
You've got this ego, wicked game  
Captivating, let me play  
I'll chase you more than I can

Ooh, yeah  
Touching in the shower  
Kiss me and devour  
Ooh, yeah

Come put your loverspell on me, baby  
I want your loverspell  
Come put your loverspell on me, baby  
I want your loverspell  
Come put your loverspell on me, baby  
I want your loverspell  
Come put your loverspell on me, baby  
I want your loverspell

Come put your loverspell on me, baby  
I want your loverspell  
Give me all your loving  
Give me all your loving  
I want your loverspell
