

Star

Stela Cole

La La La La La La La
La La La La La La La
Baby I'm a star, star
Star, star

I don't give a What
Cause I've been moving on and up and up
And I don't got the time for all these petty Scrubs
They can say I'm fake but I'm actually just busier
Everything is riskier the haters getting Friskier
99 luxury problems and I'm the one
Give it three months they all be singing this song
Posting on the gram like they believed all along
But I know my day 1s got me dumb dumbs

Still shine when the clouds turn black
So keep on blowing smoke up my ass
Built a rocket ship I'm rockin' this shit now
So fly I let the top down

I'm a star baby I'm a star
I'm an anomaly, I'm an astronaut
I'm out of this world, I shot past the moon
I'm so far ahead they always say it's way too soon
Cause I've been taking no's like I've been taking names
If you don't get the vision get the fuck out of my way
If you're an OG I'ma take you straight to mars
Yeah you best believe it when I'm gone
They gonna they gonna say that I'm a star

La La La La La La La
La La La La La La La
Baby I'm a star, star
Star, star

I'm a star, I'm a star
Cause my mama says I are
I'ma have a big house with a fountain in the yard
I work very hard the curtains close
I take a bow then double down on my memoir

And I don't even need an audience
But you been sleeping on me and it's obvious
Fuck another enemy I protect my energy clearing out the air
Where's the Frankincense

Still shine when the clouds turn black
So keep on blowing smoke up my ass
Built a rocket ship I'm rockin' this shit now
So fly I let the top down

I'm a star baby I'm a star
I'm an anomaly, I'm an astronaut
I'm out of this world, I shot past the moon
I'm so far ahead they always say it's way too soon
Cause I've been taking no's like I've been taking names
If you don't get the vision get the fuck out of my way

If you're an OG I'ma take you straight to mars
Yeah you best believe it when I'm gone they gonna
They gonna say that I'm a star
