

Oh My My My

Stella Donnelly

Morning after you're gone no more
Shower breakdown feels like you're here

I should have known yesterday
Waved as your world danced out the door
Now you're nowhere
Your face in mine
Oh my my my
Part of me died

Found your camera blurry existence
Took a village watched my dad cry

I should have gone yesterday
Waved as your world danced out the door
Now you're nowhere
Your face in mine
Oh my my my
Part of me died
Oh my my my
Part of me died
