

# Standing Ovation

Stella Donnelly

I'm hungry for the food you make  
Lemon on everything  
We carry on like muck up day  
When I wrote your name on everything

I'm looking at the pressure gauge  
To see where I end and you begin  
Sorry for the mess I made  
And thanks for everything

It's a standing ovation for someone who never replies  
And the radio station says whatever bullshit they like  
Could you do me a favour and pick out the truth from a life  
I could never replace someone as big as you were in mine  
Mine
