Only Wanted

Stellar Kart

I watched you growing up living
Out the dream I had in mind
Until I messed it up
Making you believe in what was mine
I know I pushed too hard
To make you more than who
You really are
Let's go back to the start
I know I went too far I went to far

I only wanted you to have
More than I could ever dream of
I only wanted you to know
Everything I know and then some
I only wanted you to be more than
I could ever become
I only wanted, I only wanted you

So now we're far away holding on
To miles that separate still
Waiting for the day to say
Its not too late, it's not too late

I know it's not
What you want to hear
Nothing makes up for all the
Years I pray for the day you see
I tried to raise you the best I
Know how there's only one thing
I can hope you don't end up
Just like me
