

Almost Home

Stephen Bishop

If your heart believes in dreaming
There's no other place I know
When life rolls on by without a care for tomorrow
Yeah, that was the life for me
Yeah, that was the life for me

How long must I travel on this journey?
Guess I'll count a million stars along the way
And every time I start to worry
Something whispers in my ear
Says the words I long to hear

Almost home
Almost home
Might be lost and afraid
But I'm just a dream away
I'm almost home
Almost home
Feel so cold and alone
But I'm almost home

Just one more mile and I'll be home free
Just one more day and it's all my heart needs
And I'm gonna get there
Yeah, I'm gonna get there
Someday

Almost home
On my own
Might be lost and afraid
But I'll get there someday
I'm almost home
Almost home
Feel so cold and alone
But I'm almost home
Almost home
