Fallin'

Stephen Bishop

I need your love
I can't help myself
I'm fallin', fallin'

You have the strangest glow
Heaven should know
You're here for the night
You could charm the moon down from the sky
Hey girl, I'm your guy

Tell her what you feel
I know that I can see
Do you know it's real
It's real enough for me
Cause I love that girl
And I'm gonna say to her

I need your love
I can't help myself
I'm fallin', fallin'
I need your love
I can't help myself
I'm fallin', fallin'

They say when you find the girl
Something deep inside here's your chance
And if fate is your friend
You're gonna want to find romance

You better hold her tight
I'll never let her go
You better treat her right
I'll never hurt her, no
I love that girl
And I'm gonna say to her

I need you love
I can't help myself
I'm fallin', fallin'
I need you love
I can't help myself
I'm fallin', fallin' for you

Oh, oh
Fallin'

I don't know
This can't go on forever
But I can't stay away
No, I can't stay away

I know, no
Falling, falling
Falling for your love
You can't see
It's you, you for me
I'm never gonna let you go

No, no, no, fallin'

I need you love
I can't help myself
I'm fallin', fallin'
I need you love
I can't help myself
I'm fallin', fallin'
