

# Growing Up

Stephen Bishop

Feelings

We all have feelings  
We like to give our love and get love back  
It's part of caring  
You're learning caring  
When people grow and share  
And start to know  
There's more out there

Than just getting more and taking more  
There's giving more  
The best part of living

Growing up  
It's something you can measure  
Growing up  
It happens every day  
Being young  
Is something you can treasure  
But life is good when you're growing up

Waiting  
I know you're waiting  
You'd like your turn to do  
Just what you want  
It's part of growing  
You're always growing  
One day  
You'll see and know  
All the changes you must undergo

You'll be stronger then  
And taller then  
And you'll begin the best part of living

Growing up  
It's something you can measure  
Growing up  
It happens every day  
Being young  
Is something you can treasure  
But life is good when you're growing up

Growing up  
It's something you can measure  
Growing up  
It happens every day  
Being young  
Is something you can treasure  
But life is good when you're growing up  
Life is good  
When you're growing up
