

## Little Moon

Stephen Bishop

I need your love  
I need you here  
But I can hold on  
'Till you're home with me

Shine on little moon  
So far from the sea  
How can I tell you  
What you mean to me?

Karen, I'll be strong...

I know she knows it's true  
I know she knows it's true  
I know she knows, she knows, it's true

Karen, Karen...
