

Sleeping with Girls

Stephen Bishop

He runs around with his head in the sky
He says hello then he says goodbye
His heart is pounding like the knock on a door
"Working late", she's heard that before

He's sleeping with girls
Sleeping with girls
Sleeping with girls
Sleeping with... girls

She turns away from that look on his face
She's just a shadow
And just how many were in his embrace?
She says, "I need to know"

Are you, sleeping with girls?
Sleeping with girls
Sleeping with girls
Sleeping with... girls

He knows he should not look at (girls)
He goes out the window for (girls)
He's seen every girl in this town (girls)
He's so sweet, so sweet

Blue Arizona
They move far away
She thinks he'll settle down

But she has known him for too many days
Soon as he gets around
He'll be sleeping with girls

Sleeping with girls
Sleeping with girls
Sleeping with... girls
Sleeping with girls...
