The Day You Fall In Love With Me

Stephen Bishop

Well I'll give you everything I have to give 'Cause without your lose There's barely reason to live Oh I feel that morning wind blowing through me again Ask how strong my love is It's as strong as the highest mountain

Oh what a lovely world This world will be The day you fall in love with me The Day you fall in love with me...

Everybody's running around Trying to make some sense of this But all I'm asking for Is another kiss I'm not looking for a debutante Holding a glass of champagne

I just want to make love to you Again and again...

Oh what a lovely world This world will be The day you fall in love with me The Day you fall in love with me...
