

Time Stand Still

Stephen Bishop

I feel it comin'
Over me
And her face
Is all I can see

I she really
Here with me
I don't know
I don't know

A storm is ragin'
In the summer sky
Her kisses as warm
As a Georgia July

My head is pounding
And my heart feels high
And I know
That I can't let you go

So give me something
I can hold on to
Send me a light
That'll never burn out
'Cause I'll do anything
Within my will
But I can't make time
Stand still...

I chase her shadow
In the blue twilight
Call out her name
To the stars at night
And my life means nothing
If I can't survive without you

So tell me what to do

And give me something
I can hold on to
Send me a light
That won't burn out

'Cause I'd do anything
Within my will
But I can't make time
Stand still...

And when I close my eyes
My love never dies

So give me something
I can hold on to
Send me a light
That'll never burn out
'Cause I'll do anything
Within my will

But I can't make time
Stand still...

Light me a candle
That never burns out

'Cause I'd do anything
Within my will
But I can't make time
Stand still...
