

It Was You

Stephen Day

Wasn't planets in a row
Wasn't dinner and a show
Wasn't anything you said
Wasn't anything I did

It was you
Everything and always is you
Tell me that you feel the same way too
Known it all along
It was you

There were colors in the sky
You couldn't film in black and white
They were there
And they were real

But it was you
Everything and always is you
Tell me that you feel the same way too
Known it all along
It was you

Woah, oh
Woah, oh
Woah, oh

It was you
Everything and always is you
Tell me that you feel the same way too
Known it all along
It was you

Know it all along
It was you
