

# Only Growing

Stephen Day

I ought to go  
But I ain't leaving  
Being with you feels like home  
I've been out in the cold and my hands are freezing  
And you got a fire that keeps them warm

I never like to say goodbye  
I never mean to leave you lonely  
Keep that sparkle in your eyes, baby  
And know my love for you is only growing

Pick up the phone, darling  
I wanna hear you breathing  
And all of the words in between  
Coming over the line  
I'm holding on for dear life to the feeling  
That you're next to me tonight

I never like to say goodbye  
I never mean to leave you lonely  
Keep that sparkle in your eyes, baby  
And know my love for you is only growing

I never like to say goodbye  
I never mean to leave you lonely  
Keep that sparkle in your eyes, baby  
And know my love for you is only growing
