

# Tonight

Stephen Day

Smile for me, baby  
Wipe those tears from your face  
Dance with me, darling  
Why don't we dance the night away?

And we'll rock to the rhythm of music  
Find a spot to let go and just lose it  
Whatever it takes to ease your mind and make a lady feel alright  
It'd be my delight to right the wrongs for you tonight

Sing me a song  
And I will sing right along  
Play me a tune  
And I will jump right in with you

And we'll rock to the rhythm of music  
Find a spot to let go and just lose it  
Whatever it takes to ease your mind and make a lady feel alright  
It'd be my delight to right the wrongs for you tonight

Don't you shed a tear  
'Cause baby, I'm right here  
Forget the world around you  
Make it disappear  
Come away with me  
And I will set you free  
Leave the world behind you  
And follow me tonight

And we'll rock to the rhythm of music  
Find a spot to let go and just lose it  
Whatever it takes to ease your mind and make a lady feel alright  
It'd be my delight to right the wrongs for you tonight
