

# A Fall From The Sky

Stephen Duffy

A fall from the sky

A fall from the sky

Why does it feel like winter

When you're not with me

When I'm alone

Let the young man sing

Let the young man sing

The grown man will stay silent

For he has wandered

He's lost and alone

Of women I'll die

Of women I'll die

When did I ever know them

Where did they go?

Now I'm alone

A happy thing falls

A happy thing falls

The rising of a motion

When you're not with me

A happy thing falls
