

A Masterpiece

Stephen Duffy

If I was brave enough
Maybe I'd call you up and tell you
Tell you how much I love you
Tell you how much I need you near me
Times have never been so hard
And that makes my heart beat harder
We're going to be a masterpiece
United we stand between the sheets
We'll never sleep until love's been made
And the red flag has been played
Security's all she wanted
The social is always posted to her
The sun sinks salmon slumber
She thinks 'maybe he's lost my number', maybe
Tomorrow we'll be hand in hand
Voting in the election
We're going to be a masterpiece
United we stand between the sheets
We'll never sleep until love's been made
And the red flag has been played
