

## Baby Impossible

Stephen Duffy

I come home at night after we've had a fight  
And love seems impossible  
I can't get a job, that's not unusual  
But baby get impossible  
You don't have to take it out on me  
Or make me unhappy  
When it's not too hard to work it out  
And when you've worked it out OK  
Maybe it's possible  
Baby, impossible

We'll fall in love again  
People look at me as if to say to me  
Your baby's impossible  
I don't care a bit, I'm just keeping fit  
With baby impossible  
Now I've got my own life to live  
A lot of love to give  
And lovers keep me warm at night  
When my baby feels all right  
Oh, is it any wonder we can't do anything?  
Oh, is it any wonder  
When all that we do is sit and wonder  
Why we can't do anything?
