

Holding Hands with Grace

Stephen Duffy

Holding hands with grace
Can there be a better place than this world
When you're holding hands with grace?
There's a smile upon her face
That's saying grace can be the virtue you embrace

You will know the love you get
Holding hands with grace
Can there be a better place than this world
When you're holding hands with grace?
There's a smile upon her face that's saying
Grace can be the virtue you embrace
You will know the love that comes with grace
