

The Darkest Blues

Stephen Duffy

I can't forget you no matter how I try
I can't forget you no matter how I try
For every time I see you my heart dies
Every time I see you my heart dies

I am the one that you ignore
You are the one that I adore
Oh, won't you come back again?

You are the one distraction to my darkest blues
But if I was given the chance to erase our love
You know I would refuse
A marriage made in Heaven we don't suppose
But who on Earth informed you Heaven knows?

You say that you don't care
And that it's an affair
You say we have no trust
You see my love as lust
Love given not returned
