

This Time

Stephen Marley

Well I'm like a little child
I live with love and not with style
Come talk to me a while, yeah
Cause I told you from the start
Please be gentle with my heart
Just don't leave me in the dark
Well

No, this is different than the usual
Makes it so unusual
I hope the feeling's mutual

Cause this time
Just don't know which way we're going
This time
Not familiar with this road, yeah
This time
There's a feeling in me growing
This time, yeah

Not just physical attraction
I get a different satisfaction
I need more than a fraction
And if it's inborn from creation
It needs no complication
Its follow Jah direction
And you should know, yeah
Whichever way we go, yeah
You should know I wish you well, ay
And here is to your health, salud
Please know I wish you well

Cause this time
Just don't know which way we're going
This time
Not familiar with this road, yeah
This time
There's that feeling in you growing
This time, hey

For I'm like a little child
I live with love and not with style
Won't you talk to me a while, yeah
For I told you from the start
I'll be gentle with your heart
Just don't leave me in the dark

No, this is different than the usual
Makes it so unusual
I hope the feeling's mutual
Cause this time
Just don't know which way we're going
This time
Not familiar with this road, yeah
This time
There's that feeling in you growing
This time, hey

This time

(Until I know)

(As the seasons go)

(And the feelings grow)
