

## America to Africa

Stephen Simmonds

In America to Africa  
There's a message unrecieved  
And a distance that we never go  
A truth that's not believed  
In America to Africa  
From achieving to the need  
There are stories that I wish untold  
In every paper that I read  
So when love arrives  
Don't be scared to go  
If fear is your alibi  
Then loose your control  
In America to Africa  
If you believe in love  
Don't let them hold you back or put you down  
Just rise above

In America to Africa  
Are you feeling what I feel  
Cause' I wanna' know what side you're on;  
When belief turns in to real  
It won't be long  
In America to Africa  
From the flower to the root  
There's a sickness in the way we grow  
In every garden there is proof  
In America to Africa  
In a silence we all choose  
Where the guilty ones all wear our clothes  
And they're walking in our shoes
