

Alive To Fight

Stephen Speaks

This whole ship's going down
If I can't find a way
Not to fall apart
Not today

This whole ship's going down
If I can't find a way
To get everybody out
Out and safe

'Cause there's a thief out in the night
Who's after all your things and life
Of the child in your wife
You better let em know
You remain alive to fight
Alive to fight

This family won't last
If I can't find a way
Not to lose my cool
Stay cooler than the day

This family won't last
If I can't find a way
To be the bigger man
And save the day

'Cause there's a thief out in the night
Who's after all your things and life
Of the child in your wife
You better let em know
You remain alive to fight

The thief in the night
Who's after all your things and life
Of your children and your wife
You better let em know
You remain alive to fight
Alive to fight
You remain alive to fight
I said you remain alive to fight
I said you remain alive to fight
