

Cuckoo

Stephen Wilson Jr.

Bank owns the house, bank owns the land
Boss owns the truck and the hammer in my hand
Ex got the kids and half of my check
Other half goes to the IRS, cuckoo

My beer's on the hood, car's on the blocks
Carburetor parts still sitting in the box
Wrenching that wrench, stripping that bolt
Busting up a knuckle make a man go cuckoo

This world keeps shaking me, breaking me, taking me
Making me damn near crazy as a loon, cuckoo
Out here, out there, out pulling my hair out, burn out a little too soon
Running from a train, gunning that race, chasing that carrot on a pole
One more thing in a long line of things I can't control, ha

Doc says hi, gives me a pill
Shoots me a shot, sends me the bill
Life is a road and it's all uphill
One don't drive you, then the other one will, cuckoo

This world keeps shaking me, breaking me, taking me
Making me damn near crazy as a loon, cuckoo
Out here, out there, out pulling my hair out, burn out a little too soon
Running from a train, gunning that race, chasing that carrot on a pole
One more thing in a long line of the things I can't control

Cuckoo

The sun goes up, sun goes down
We all wind up six feet in the ground, that's right
Sun goes up, sun goes down
We all wind up six feet in the ground
Sun goes up, sun goes down
We all wind up six feet in the ground
Sun goes up, sun goes down
We all wind up six feet in the ground
Don't know much, tell you what I do
Sooner or later, we all gonna go cuckoo

This world keeps shaking me, breaking me, taking me
Making me damn near crazy as a loon, cuckoo
Out here, out there, out pulling my hair out, burn out a little too soon
Dead last place, gunning that race, chasing that carrot on a pole
One more thing in a long line of things I can't control
One more thing in a long line of things I can't control (Listen, oh yeah)

(Oh yeah, oh yeah)
(Oh yeah, oh yeah)

One more thing in a long line of things I can't control
One more thing in a long line of things I can't control, yeah
One more thing in a long line of things I can't control
One more thing in a long line of things I can't control
